

# Josefine Pettersson

## Front End Developer Student

### ABOUT ME

My name is Josefine and I'm currently studying to become a front-end developer. I will be finished with my education during spring 2025. I've chosen to pursue my interest for creative problem-solving. My motivation for undertaking this education stems from the keen interest to solve problems and create something that add value. By being part of the future of technology, I aim to actively contribute to shaping a more user-friendly and including world.

### SKILLS

- HTML
- CSS
- Github
- Javascript
- Typescript
- SQL/NoSQL
- REST API
- SCRUM
- UI/UX
- React
- Testing

### EDUCATION

#### Front End Developer

- **Medieinstitutet | Malmö**  
August 2023 – April 2025

While focusing on front end developing, such as HTML, CSS, Javascript, Typescript and React – we also get knowledge about REST-API, SQL and NoSQL databases as well as UX and UI.

#### Independent Courses

- **Lunds University | Mid Sweden University**  
Jan 2017 – Sep 2019

Took independent courses in human rights, peace and conflict, sociology, political science and gender studies.

### WORK EXPERIENCE

#### Activity Leader

- **Daglig Verksamhet, LSS | Malmö**  
Sept 2022 – Aug 2023

My responsibilities could involve crafting and tailoring activities to cater to individual needs and interests. Also, ensuring that participants receive the necessary support and opportunities to actively participate in various activities.

#### Healthcare worker

- **Hemtjänsten | Lund**  
June 2020 – Aug 2022

I provided care and support to individuals in their homes. This included personal care, medication management, and assistance with daily activities such as cooking and cleaning. Building positive relationships and offering social support were integral aspects of my responsibilities.

#### Cleaner

- **Provisor Service | Lund**  
2018 – 2019

I worked hours and summers, cleaned offices and assisted in the office building's restaurant, handling dishwashing and preparing lunch.

#### Service

- **Bring Frigo AB | Helsingborg**  
2013 – 2016

I worked hours and summers, managed purchases and mail/packages within the company

My name is Josefine, I am 29 years old, and I am currently in the midst of my education as a front-end developer. I am now seeking an internship position that spans from September 9, 2024, to November 15, 2024. I will have completed the program's courses before starting the internship.

Previously, I worked as an activity leader within LSS (Assistance and Support for Persons with Disabilities), where I had the opportunity to enhance my skills in communication, finding creative solutions to problems, and collaboration.

In my role as a healthcare assistant, I developed the ability to work independently and with a variety of people, both within the team and in close patient care.

My experience has benefited me both personally, in my professional life, and now in my studies.

I am a kind and curious individual who enjoys working both independently and in a group.

I am now excited and eager to further develop the skills I have acquired in school by applying them in practice. I look forward to evolving as a coder and contributing to a team.

My interest in creative problem-solving, innovative and including solutions has led me to explore opportunities where I can contribute to meaningful projects while continuously learning and growing. Your focus at CoreChange on seeing opportunities within change and your commitment to creating a work environment where employees can grow and develop resonates strongly with me.

Please feel free to reach out to me to schedule a meeting. I am excited about the possibility of joining your team during the internship period. I look forward to the opportunity to connect.
